

2023 RESIDENTIAL REBATES

NEW HOME CONSTRUCTION

All Star Home Requirements: **\$500/home**

- Energy-Efficient Home Construction: High performance insulation and windows.
- High Efficiency Heating and Cooling: Requires geothermal, cold climate air-source heat pump or ENERGY STAR® air-source heat pump.
- Efficient Electric Water Heating: Requires the installation of a heat pump water heater or geothermal assisted electric water heater.
- Electric ENERGY STAR appliances for clothes washer, clothes dryer, dishwasher and refrigerator.

Premier Electric Home Requirements: **\$200/home**

- Standard air-source heat pump or better
- Electric resistance water heater or better
- Building shell checklist

CREATE A HEALTHY HOME

Keep it Well-ventilated

Ventilate bathrooms and kitchens; consider using whole house ventilation to supply fresh air and reduce the concentration of contaminants in the home.

Keep it Contaminant-free

Reduce lead-related hazards in pre-1978 homes by fixing deteriorated paint, and keeping floors and window areas clean using a wet-cleaning approach. Test your home for radon, a naturally occurring dangerous gas that enters homes through soil, crawlspaces, and foundation cracks. Install a radon removal system if levels above the EPA action-level are detected.

Thermally Controlled

Houses that do not maintain adequate temperatures increase the risk for inhabitants to be exposed to extreme cold or heat.

WEATHERIZATION

Requirements:

- Rebates based on heating source.
- Home must be built prior to 2000.
- Must be upgraded to existing home (new additions do not qualify).
- Project cost must be \$150 or more (labor costs for self-installed projects cannot be included).

Electric Heat (with or without air conditioning)

Attic/Ceiling Insulation	60% up to \$600
Wall Insulation	60% up to \$600
Foundation Insulation	60% up to \$600
Infiltration Control	60% up to \$200
Duct Insulation/Sealing	60% up to \$200
Maximum rebate per home	\$2,200

Central AC Only (non-electric heating)

Attic/Ceiling Insulation	15% up to \$150
Wall Insulation	15% up to \$150
Maximum rebate per home	\$300

LIHEAP Qualified, no LIHEAP covered costs

(Same above requirements apply)

Electric Heat (with or without air conditioning)

Attic/Ceiling Insulation	80% up to \$800
Wall Insulation	80% up to \$800
Foundation Insulation	80% up to \$800
Infiltration Control	80% up to \$200
Duct Insulation/Sealing	80% up to \$200
Maximum rebate per home	\$2,800

Central AC Only (non-electric heating)

Attic/Ceiling Insulation	20% up to \$150
Wall Insulation	20% up to \$150
Maximum rebate per home	\$300

Contact Clarke Electric for the complete list of rebates and qualifications

WATER HEATERS

Heat Pump Water Heater ENERGY STAR® Integrated Unit	\$650/unit
High Efficiency Electric Water Heaters Electric Resistance Unit (not less than 40 gal. tank - min. EF ≥ 0.90)	\$75/unit
Electric Resistance Unit w/1st Time Heat Plus (not less than 40 gal. tank - min. EF ≥ 0.90)	\$125/unit
Geothermal Assisted Storage Unit (not less than 40 gal. tank - min. EF ≥ 0.90)	\$150/unit
Beneficial Electrification(BE) Incentive Go Electric Bonus <i>When a resistance or HPWH unit is replacing a natural gas or LP unit, or for new accounts.</i>	\$100

Heating is the largest energy use for homes in Iowa and provides the biggest opportunities to save. When properly installed, an ASHP can deliver one and a half to three times more heat energy to a home than the electrical energy it consumes (Source: U.S. Department of Energy). As a result, some of these systems can provide heat at a higher efficiency and lower cost than electric resistance heating, oil, or propane heating systems—and in some cases, for a lower cost than gas heating as well.

HEATING & COOLING

Heat Plus Rate Per Home Per Apartment <i>Requires separate meter</i>	\$100 \$50
Groundsource Heat Pump Closed Loop System Open Loop System <i>No "pump & dump" systems</i>	\$400/ton \$300/ton
Hybrid System with Gas Backup Unit Replacement	Add'l \$100/ton \$150/ton
Air-Source Heat Pump, Including Minisplits Cold Climate Heat Pump Standard Air-Source Heat Pump Hybrid Air-Source Heat Pump Bonus ENERGY STAR Bonus <i>Min. SEER 15.0, HSPF 8.2, EER 12.5 - Split system</i> <i>Min. SEER 15.0, HSPF 8.2, EER 12 - Single package</i>	\$400/ton \$200/ton \$100/ton \$250/unit

ENERGY STAR Central Air Conditioning ENERGY STAR qualified <i>Min. SEER 15.0 & EER 12.5</i> <i>Limit two air conditioner rebates per residence.</i>	\$100/unit
---	------------

Indoor Air Quality Energy/Heat Recovery Ventilator (ERV/HRV) <i>Equipment must serve the entire conditioned space of the home. Limit of two HRVs per home.</i>	\$250/unit
---	------------

ENERGY STAR APPLIANCES

ENERGY STAR Clothes Washer ENERGY STAR qualified <i>(must have electric water heater)</i>	\$40/unit
ENERGY STAR Electric Clothes Dryer ENERGY STAR qualified	\$20/unit

Single Family Home Energy Consumption

ELECTRIC VEHICLE LEVEL II CHARGERS

The cooperative will rebate 50% of the installed cost, up to \$500, for Level II chargers requiring a 240/208 volt input supply. The primary charging location of the vehicle must be at the home address of the distribution cooperative member. Wiring rebates may also be available to offset cost of Level II charger installation.

APPLIANCE RECYCLING

Call our toll-free Pull the Plug hotline at (855) 838-7817 to request collection and recycling of your old, working refrigerator, freezer or window air conditioner; up to three operable units per address. Pick up and recycling is done by the cooperative's contractor.

Refrigerator	\$35/unit
Freezer	\$25/unit
Window Air Conditioner	\$25/unit
